🎖 Projects

CRAFITORI | Handcrafted Goods Marketplace
Built a marketplace using React.js and Tailwind CSS. Implemented an interactive category slider and seamless navigation experience. Integrated API calls for fetching product details dynamically.

Remote Careers | Job Portal
Developed a job board using React.js and Vite. Designed a responsive layout with Tailwind CSS and integrated API endpoints for dynamic job listings.

PrimeEats | Delivery Food Website
Created an interactive food delivery platform with React Slick UI for restaurant slider. Implemented API integration and optimized mobile responsiveness.

🎓 Education

ALX Software Engineering Program (2025)
Completed a rigorous software engineering curriculum focusing on problem-solving, full-stack development, and real-world project implementation.

🎖 Achievements & Certifications

Completed ALX Software Engineering Program • Proficient in state management with Redux and Context API • Strong understanding of API integration and RESTful services
